

Research Federation in Mathematics Auvergne-Rhône-Alpes (FR 3490)

Affiliated to:

Established in 2014, the Federation regroups the six mathematics institutes of the Auvergne-Rhône-Alpes region:

- ICJ, Institut Camille Jordan, Lyon and Saint-Etienne.
- IF, Institut Fourier, Grenoble.
- LMBP, Laboratoire de Mathématiques Blaise Pascal, Clermont-Ferrand.
- LAMA, Laboratoire de Mathématiques, Chambéry.
- LJK, Laboratoire Jean Kuntzmann, Grenoble.
- UMPA, Unité de mathématiques pures et appliquées, Lyon.

It brings together almost 500 faculty and researchers, 80 staff, as well as 250 doctoral students. It hosts three international mathematics journals:

- Annales Mathématiques Blaise Pascal (Clermont-Ferrand).
- Annales de l'Institut Fourier (Grenoble)
- Confluentes Mathematici (Lyon).

Research Federation in Mathematics Auvergne-Rhône-Alpes (FR 3490)

The Federation

- aims to showcase the mathematical skills present on the territory,
- optimizes the use of means and regional funding.

Organisation :

Frank Wagner (Director) with center heads in Lyon, Grenoble and Clermont-Ferrand + directors of the six institutes.

Activities:

- Support for projects involving different institutes and sites.
- Support for conferences.
- Research initiation activities aimed at master students.
- Coordination of the answers to funding calls within the perimeter of the Federation.
- Facilitates the start of the Mathematics Institute for the Planet Earth in the AuRA region.
